PROFILE

A passionate and self-motivated MCA graduate seeking an opportunity to begin my career in the software development field. I aim to utilize my programming skills, technical knowledge, and problem-solving abilities to develop efficient software solutions while contributing to organizational growth. I am eager to learn new technologies, improve my skills, and work effectively in a challenging and collaborative environment

SKILLS

- Programming Languages : C++,Python
- Web Technologies: HTML, CSS, JavaScript
- Framework: Flask
- Machine Learning: CNN,PyTorch,Torchvision
- Operating System: Linux,Windows
- Database: MySQL

PROJECT EXPERIENCE

Plant Diseases Based Fertilizer Ordering System

JUL 2026

Technologies Used: Python, Flask, MySQL, HTML, CSS, JavaScript, Bootstrap, PyTorch, TorchVision, CNN

- Developed a web-based application that detects plant diseases using a Convolutional Neural Network (CNN) model built with PyTorch.
- Implemented an image upload feature to classify plant leaf diseases and display disease details with preventive measures.
- Integrated a fertilizer recommendation system based on the predicted plant disease.
- Designed and developed an online fertilizer ordering module with shopping cart, order management, invoice generation, and order tracking.
- Built separate Admin and Customer modules with secure authentication.
- Developed an Admin Dashboard to manage products, customers, orders, and customer feedback.
- Integrated a MySQL database for storing user, product, order, and feedback information.
- Improved the user experience by combining AI-based disease detection with an e-commerce platform for fertilizer purchasing.

Digital Learning Platform

MAR 2024

Technologies used: PHP,MySQL

- Designed and developed a Web based application for digital learning using PHP.
- Built responsive and user-friendly UI to ensure seamless access across desktop and mobile devices.
- Implemented secure user authentication and role-based access (Admin, Teacher, Student).
- Integrated MySQL database for managing user data, course content, and progress tracking.
- Developed backend functionalities for course uploads, lesson management, and student enrollment.
- Ensured application performance, reliability, and data consistency through proper validation and testing.
- Collaborated in requirement analysis, design, development, and testing phases of the project lifecycle.

EDUCATIONS

JUL 2026

Master of Computer Applications (MCA)

Priyadarshini engineering college
Vaniyambadi.

HSLC STUDIED

MAY 2021

Raji Garden matric Hr.Sec school
Natrampalli.

SSLC STUDIED

MAR 2019

Brindavan matric Hr.sec school
Natrampalli.

PRESENTATIONS

MAR 2026

"Plant Diseases Based Fertilizer Ordering System" at the National Conference on Automation Using AI Technology (NCAAIT'26), Er. Perumal Manimekalai College of Engineering.

KNOWN LANGUAGES

English & Tamil

STRENGTHS

- Problem Solving
- Teamwork
- Quick Learner
- Adaptability
